PROFESSIONAL EXPERIENCE

Software Engineer | Vyctoria Karina LTDA

Remote | 10/2023 - Present

Working as a Software Engineer, developing scalable and modern applications with **React.js, Next.js, and TypeScript**. Actively participating in the construction of **intuitive interfaces**, ensuring **excellent user experience** and high performance.

Main responsibilities:

- Developing **web applications** using **React.js, Next.js, Vercel**, and **TypeScript**.
- Building reusable components, optimizing **code performance and maintainability**.
- Integrating REST and GraphQL APIs.
- Implementing **CI/CD processes** with **GitHub Actions and Vercel**.
- Ensuring **cross-browser compatibility** and responsiveness across devices.

FullStack Developer | Vili Tecnologia

Munich, Germany - Hybrid | 02/2023 - 10/2023

Worked on the development of **web solutions for telecommunications**, ensuring **high availability and performance**. Used **React.js, Vue.js, Node.js**, and RESTful API integrations.

Main responsibilities:

- Developing **rich and interactive interfaces** with **React.js and Vue.js**.
- Implementing **best UX/UI practices** for modern interfaces.
- Optimizing performance and solving **cross-browser issues**.
- Participating in code reviews to maintain **best practices and quality**.

Frontend Software Engineer | Banco Itaú

São Paulo, Brazil - Remote | 12/2020 - 01/2022

Worked on the development of impactful financial applications such as **PIX and Iti Digital Bank**, using **React.js, Next.js, and TypeScript**.

Main responsibilities:

- Developing **scalable and secure interfaces** with **React.js and Next.js**.
- Implementing **unit tests with Jest** to ensure quality.
- Integrating with **REST and GraphQL APIs**.
- Using **Strapi CMS** to manage dynamic content.

Frontend Developer | Stoom - E-commerce Solutions

São Paulo, Brazil | 11/2019 - 12/2020

Worked on developing **responsive and cross-browser compatible interfaces**, ensuring an **optimized user experience** for various devices.

Main responsibilities:

- Developing **reusable components** with **React.js and Vue.js**.
- Integrating with **RESTful APIs** and optimizing **UX/UI**.
- Ensuring compatibility across **different browsers and mobile devices**.
